

VEER BHAN SINGH

WEB DEVELOPER

PROFILE

I am a results-driven back-end developer with a passion for leveraging cutting-edge technologies to bring innovative ideas to life. My comprehensive skill set and track record of success make me a valuable asset to any development team.

WORK EXPERIENCE

Vebrin Infotech PVT. LTD. JAIPUR

Junior web developer

JANUARY 2019 - MARCH 2021

- As a junior developer from January 2019 to March 2020, I specialized in WordPress and Laravel. In WordPress, I focused on crafting sleek websites through theme customization and plugin integration. Meanwhile, in Laravel, I delved into backend development, creating efficient web applications. Throughout this period, I absorbed knowledge like a sponge, learning the ropes of web development while contributing enthusiastically to my team's projects. My journey involved overcoming challenges, refining my skills, and ultimately, delivering simple yet effective solutions to our clients.

Teqberto Pvt. Ltd. JAIPUR

Web developer

APRIL 2021 - APRIL 2023

- From March 2021 to May 2023, I gained extensive experience as a web developer specializing in WordPress and Laravel. During this time, I honed my skills in creating dynamic and responsive websites, utilizing the functionalities of both platforms to deliver high-quality solutions. In WordPress, I excelled in theme development, plugin customization, and website optimization. Meanwhile, in Laravel, I focused on building robust web applications with a strong emphasis on backend development and database management. Through continuous learning and problem-solving, I successfully delivered numerous projects, ensuring client satisfaction and contributing to the growth of the development team.

Webrock Media Pvt. Ltd. JAIPUR

Web developer

MAY 2023

- Currently, I'm employed at Webrockmedia PVT LTD as a PHP, WordPress, and Laravel developer, leveraging my expertise to deliver innovative web solutions. Since joining, I've been actively involved in developing dynamic websites and robust web applications. My responsibilities include PHP programming, WordPress theme and plugin development, as well as Laravel backend development. Through my tenure, I've contributed significantly to various projects, ensuring timely delivery and exceeding client expectations. Collaborating within a talented team, I've embraced challenges and continuously enhanced my skills, striving for excellence in every task undertaken.
