PROFILE

Web Developer with 2 years of experience in building responsive web applications using HTML, CSS, JavaScript, React.js, and design tools like Photoshop and Canva. Skilled in front-end development, creating custom HTML templates, integrating APIs, and enhancing user experience with clean, efficient code. Possesses working knowledge of Angular and a strong eye for design and usability. Quick to adapt and continuously learning emerging technologies.

EXPERIENCE

Web Designer | Key Technology

April 2024 – Present | Nagpur – 440024

Projects 1: 10 Club Network

Designed and developed a mobile-optimized web application featuring a dashboard for a blockchain-based token mining ecosystem. Focused on efficient user management and ensured support for seamless, mobile-friendly blockchain transactions and interactions.

Responsibilities:

- Developed responsive, user-friendly MLM website templates and crypto-related sites with optimized performance and security.
- Designed custom dashboards for users/admins, enhancing data accessibility and usability.
- Created logos and branding materials, ensuring visual consistency across digital platforms.
- Collaborated with teams to integrate UI/UX designs into functional web applications.
- Proficient in HTML, CSS, JavaScript, and design tools like Adobe Photoshop and Canva, with focus on SEO, accessibility, and mobile-first design.

Tech Stack: HTML, CSS, Bootstrap, JavaScript, Photoshop

Projects 2: Bitkash (Future Investment)

Developed a mobile-optimized web application with a user-friendly interface for multi-currency investments and earnings tracking. Integrated digital wallets, real-time conversion dashboards, and a seamless investment flow to enhance user experience and financial accessibility.

Responsibilities:

- Designed a responsive UI for Bitkash, enabling multi-currency investments, wallet tracking, and seamless navigation using Bootstrap and modern design tools.

Tech Stack: HTML, CSS, Bootstrap, JavaScript, Photoshop
