○ Business Analytics Intern at Bharat Intern 07/2023 – 08/2023

● **Forecasting the sales of supermarket: E-commerce sales analysis is used to identify potential areas for revenue expansion, including which products are selling well and which are not, the most successful marketing strategies, and the most valued client groups. Additionally, it can be applied to problems like high client attrition rates, low conversion rates, or expensive customer acquisition costs.**

● **Movie Data Analysis: Analysis is utilised to identify areas for revenue growth, such as which movies generated the most money, which types of movies people prefer, how dependent movies are on their directors, how successive movies are based on runtime and movie type, top movies in terms of ratings and profits, etc.**
