## Summary

---

Passionate and creative web developer with 2 year of hands-on experience building responsive, user-friendly websites. Skilled in front-end and back-end technologies including HTML5, CSS3, JavaScript, React.js, Node.js, and MongoDB. Proficient in translating design mockups into fully functional digital products while ensuring cross-browser compatibility and performance optimization. Passionate about clean code, continuous learning, and delivering impactful solutions in fast-paced environments.

## Education

---

### Bachelor of Technology (B.Tech) in Computer Science Engineering

Rajasthan Technical University

Expected 2026

Relevant Courses: Artificial Intelligence, Data Structures, Networking, Computer Architecture

## Work Experience

---

### Web Development Intern

May 20, 2024 – July 3, 2024

AnkTech Softwares Pvt. Ltd, Jaipur

- Developed responsive and user-friendly web interfaces using React.js and JavaScript, ensuring smooth user experience across all devices.
- Implemented interactive UI components and optimized pages for performance, SEO, and mobile responsiveness.
- Collaborated with a team of 4 developers, contributing to successful project delivery and gaining strong teamwork and communication skills.

### Full Stack Web Developer Intern

22 May, 2025 – 20 July 2025

Upflairs pvt.Ltd.

- Designed, developed, tested, and debugged full-stack features, actively participating as a productive member of the development team.
- Researched and applied new standards, tools, and web development trends to improve project quality, performance, and maintainability.

## Projects

---

### E-Commerce Website

Designed and maintained a promotional landing page for the Fall-Winter 2023 collection of Male Fashion. Focused on ethical craftsmanship and premium quality. Integrated clear CTAs, seamless navigation, and responsive design.

### Stock Trading Platform

Developed core modules of a stock trading platform, including real-time price updates, buy/sell order handling, and portfolio management using React, Node.js, and APIs..

### Expense Tracker App

Built a React-based expense tracker with modular components, dynamic forms, a responsive expense table with filters and real-time updates, and data persistence using local storage.
