ABOUT ME

I am a web designer with 2.5 years of experience specializing in responsive website design and web panels. My passion lies in creating user-friendly and visually engaging digital experiences that work seamlessly across devices. With a proven track record of completing over 15 projects, I have honed my skills in designing modern, functional, and aesthetically appealing websites. I thrive on delivering innovative solutions that align with both user needs and business objectives.

SKILLS

Skills: HTML-5 | CSS | Bootstrap | SaaS | Tailwind CSS | Java Script | Figma (Basic) | React (Learning)
Angular (Basic) | Responsive Web Design
