EXPERIENCE

Data Analyst Intern

Eeki, Kota

Aug 2025 - Present

In Office

- Analyzing climate and crop sensor data (temperature, humidity, rootzone, leaf temperature, etc.) using SQL and Excel.
- Designed and optimized queries for Grafana dashboards to monitor real-time farm performance.
- Created watchdog queries for anomaly detection and automated alerts.
- Automated daily reporting workflows, reducing manual effort.

Data Analyst Intern

FireAI

Oct 2024 - Mar 2025

Remote

- Conducted data analysis using MySQL, PostgreSQL, Excel, and Power BI to uncover trends and insights.
- Developed interactive dashboards and reports to support data-driven decision-making.
- Managed client handling and project coordination for Faballey, Isa Logistics, and Roop Jeevan Hospital.
- Performed industry research and delivered actionable insights.
