OBJECTIVE

- Software engineer with hands-on experience delivering multiple live websites for global clients. Proficient in MERN stack, React.js, and other modern web technologies. Proven ability to build scalable solutions, debug complex issues, and ship production-ready code. Ready to contribute immediately with technical expertise and execution speed.

EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B. Tech, IT	Deen Dayal Upadhyaya Gorakhpur University	8.21	2025
Senior Secondary	Oasis Public School, Varanasi	83	2020
Secondary	Oasis Public School, Varanasi	82	2018

EXPERIENCE

➤ Salesqueen Software Solution

Sep2024-Dec2024

Frontend Intern

Remote

- Developed and maintained **UI/UX and location management** features by **HTML, CSS, and JavaScript**.
- Identified and resolved issues through advanced debugging techniques and browser developer tools.

➤ Samsung Innovation Campus

May2024-Aug2024

Industrial Training in AI

Gorakhpur, UP

- Gained hands-on experience in AI concepts including **machine learning, data preprocessing, and model development**. Participated in real-time projects, enhancing problem-solving and analytical skills.

PROJECTS

➤ **Job Portal: MERN Fullstack Project**

Tools/Technologies: React.js, Redux, Tailwind, Node.js, Express.js, Authentication(JWT), MongoDB

- Designed a job portal for **students to search/filter jobs** and **recruiters to post/manage applications**.

➤ **Controlling PC Using Hand Gesture: Python Project**

Tools/Technologies: Python, OpenCV, MediaPipe

- **Implemented gesture-based control features**, a processing real-time video using OpenCV and Python.

LIVE WEBSITE DEVELOPMENT (Ongoing)

- Developed and deployed 4 live production websites (trydigital.com.au, msgtransport.com.au, premiercareconnect.com.au, tapttechplumbing.com.au) for Australian clients using WordPress and Latest web technologies, ensuring responsive design and optimal performance. Also some mern website for Indian clients.

SKILLS

- **Programming Languages:** Java, Python, Javascript, SQL, C Programming.
- **Technologies/Framework/Library:** React.js, Next.js, Wordpress, Webflow, Mongo DB.
- **Tools:** Vscode, Jupyter, Git, Git Hub.
- **Behavioral Skills:** Communication, Problem Solving, Time Management.

CERTIFICATIONS (NPTEL)

➤ **Software Testing**

Nov2024

➤ **Cloud Computing**

Nov2024

➤ **Block Chain**

May2025

ACHIEVEMENTS

- Participated in Cognizant's recruitment process, completing Communication, Aptitude, and Technical assessment rounds.
