SUMMARY

I am a creative and detail-oriented Web Designer with over 3 years of experience in designing and developing user-friendly, responsive websites. My expertise encompasses HTML5, CSS3, and JavaScript, combined with strong skills in performance optimization and UI/UX best practices. I excel at collaborating with teams and clients to bring concepts to life, ensuring a seamless user experience.

EXPERIENCE

Web Designer

Techno Derivation Pvt. Ltd

08/2021 - 01/2025 Jaipur

- Designed and developed responsive, user-centric websites aligned with modern UI/UX best practices.
- Collaborated cross-functionally with clients and internal teams to translate creative concepts into high-performing web solutions.
- Improved website performance, accessibility, and scalability by implementing up-to-date technologies and iterative enhancements.
- Managed end-to-end website lifecycle, including system administration, graphic design (banners/brochures), and post-launch maintenance and support.

Senior Web Designer

Proftcode Private Limited

03/2025 - Present

- Designed and developed responsive, visually engaging websites focused on delivering seamless user experiences and adhering to contemporary design standards.
- Collaborated with clients and multidisciplinary teams to bring creative concepts to life through dynamic, interactive digital products.
- Optimized performance, loading speed, and accessibility by applying modern web development practices and the latest technologies.
- Oversaw the full web development lifecycle, including UI/UX design, banner and brochure design, website maintenance, and technical issue resolution.
- Ensured cross-browser and cross-device compatibility for consistent functionality and user experience across platforms.
